

Dear Valued Customers,

The health and well-being of our employees and customers is of utmost importance. With the COVID-19 global pandemic continuing to evolve rapidly, we have decided to close our stores from Tuesday, March 17 through Tuesday, March 31, to help reduce the potential spread of COVID-19.

Our employees have been advised to stay home if they are sick and we have revised our policies to allow for greater flexibility. Employees have been advised that they will not be traveling at this time and we are allowing employees, when possible, to work from home. We have implemented additional safety measures with increased cleaning and disinfectant sanitization.

Our website and fulfillment is open for business and our team is on call to help in any way and ship your favorite team or uplifting designed socks to help add a smile and lift spirits during this difficult and unprecedented time.

Thank you for your continued business and we look forward to seeing you soon! Please be safe and stay healthy!
